Company Profile

INTRODUCTION

S. E. APPLIANCES (SEA) is a largest producer of tubular heating elements for domestic and industrial applications in India. The elements are sold under the various brand name. The heating elements manufactured at our plant located in BADDI of states of Himachal Pradesh in INDIA. The plants are capable for handling huge volumes both for domestic and export markets. The elements are sold to OEMs as well as in the spares market. Our customers for heating elements include all major domestic and multinational white goods manufacturers in India. From the day of inception, SEA has come a long way with a strong determination to survive all odds, we are committed to:-

In-corporate latest innovations and technological expertise in our production systems that are cost effective.

To excel in every aspect of product quality and customer satisfaction.

Our nationwide acceptance is rooted in quality processes that are employed at every step throughout the enterprise production line

TEAM SEA

The company is backed by diligent team of highly qualified engineers and professionals with more than 15 years in the specialized field of electric heating elements, we are able to gain proficiency in producing the top class products in industry. We have hired the employees on several grounds of their knowledge, qualification, experience, and dedication. With the help of their determined tasks and performance, all the operations are carried out in systematic and managed manner. We provide them regular training sessions also. Having vast experience in designing elements and also expanding vertically, we at SEA have started a separate division dedicated to designing units and systems. This division will be responsible from enquiry to designing to execution of the units. We will also provide third party inspections. In order to fuel expansion, to enhance our range of products we are planning to introduce value added products with latest technology.

WHY SEA

Working with the objective to bring regular improvements in our range and serve the best to customers, we are dominating the industry. Technical expertise of our professionals and the focus on research & development tasks have helped us to stand a step ahead of our counterparts. Further, our

professionals retain healthy relations with the customers, which help in knowing their exact preferences and then providing them the best products, accordingly. A large number of clients prefer us due to our fair trade practices, reasonable prices and on time delivery of orders at their desired place. The major features, which keep us ahead the competitors are:

- ★ Proficient team
- ★ Widespread market distribution network
- ★ Timely delivery
- ★ High quality products
- ★ Robust machinery and tools
- ★ Competitive prices
- ★ Prompt after-sales service
- ★ Vast experience in the field of Electrical heating
- ★ ISO 9001:2015 certified plant .)

Ample stocks of raw materials for quick delivery

- ★ Adequate Manufacturing capacity
- ★ Dedicated R&D department for new developments
- ★ Quality checking at various stages

CUSTOMER SUPPORT

The Philosophy of SEA is its Commitment to Support the Customers.

This Commitment goes beyond the mere delivery of highly reliable heaters/products, It extends to Education in order to maximize understanding and the capability of the Product/Heaters to achieve the best Possible Results.

***“ We value all customers
as they are important for us”***
